

0448

Very resistant Nylon fibre discs with embedded coarse-grained silicon carbide abrasive. The fibrous structure allows for aggressive removal of coatings without damaging underlying materials. They may be fitted on grinder and mini-grinder (DN version) or drill (RN version) with special shank.

TYPE OF USE

Scouring, cleaning welds and removing rust and millscale. Ideal on stainless steel surfaces, surfaces to be grouted, rubber, plastics and much more.

	MM		INCH
