

1841

Flexible spiral brush, made of PPL, 3m long and modular. The Gutter Guard is an original product by SIT TecnoSpazzole that, in a simple yet brilliant way, prevents leaves, dry branches and other waste from clogging gutters or pipes. Once manually placed inside the gutter or the drain, the Gutter Guard works entirely on its own. We suggest simple and regular maintenance by removing the brush when it is very dirty, washing it under running water and placing it back, which ensures an almost endless service life!

TYPE OF USE

Protects gutters and ducts. It can be used to prevent weeds from growing in drains on the ground.
