

Cylindrical punched-in modular brushes, standard length 100 mm, pitch 15mm, toothed on the sides, suited to form rolls of any length. RDM brushes are self-dragging thanks to the TD locking collars with three locking screws each, located at the ends of the roller.

TYPE OF USE

Light deburring, satin finishing and polishing of any kind of surface. Abrasive nylon single-section wheel brushes are also suited for pickling and aging.
