

## RMD Punched-in modules brushes

Cylindrical punched-in modular brushes, standard length 100 mm, pitch 15mm, toothed on the sides, suited to form rolls of any length. RDM brushes are self-dragging thanks to the TD locking collars with three locking screws each, located at the ends of the roller.

### TYPES OF USE

Light deburring, satin finishing and polishing of any kind of surface. Abrasive nylon single-section wheel brushes are also suited for pickling and aging.
